

(ISC)2[®] Entry-level cybersecurity certification (CC)

Course: **00044**

Filter: **Beginner**

Duration: **1 days**

Category:: **Cyber Security**

Price: **2500,00 €**

About Course

To help bridge the skills gap, (ISC)2 has launched the entry-level Certified in Cybersecurity (CC) certification. Requiring no experience, it opens the doors to this field to a much wider range of candidates, including recent graduates, career changers and information technology (IT) professionals. In addition, CC certification gives newcomers access to advanced cybersecurity certifications such as CISSP (Certified Information Systems Security Professional), CompTIA Security+, and other future management roles.

What you'll learn

- Premium Bundle includes 6 hours of self-paced content in preparation of live sessions
- Participate in peer discussions and roundtables
