

Certified Information Privacy Professional (CIPP US)

Course: **00051**

Filter: **Beginner**

Duration: **2 days**

Category: **Data Privacy**

Price: **2000,00 €**

About Course

Certified Information Privacy Professional (CIPP/US) covers U.S. government privacy laws, regulations and policies specific to government practice, as well as those more broadly applicable to the public and private sectors in the U.S. In this CIPP course, you gain an understanding of government-standard practices for privacy program development and management, privacy compliance and auditing, records management and agency reporting obligations for privacy. The Certified Information Privacy Professional (CIPP/US) is based on the body of knowledge for the IAPP's ANSI-accredited Certified Information Privacy Professional/ U.S. (CIPP/US) certification program. The content is based on the body of knowledge for the IAPP's globally recognized Information Privacy Professional/U.S. Government (CIPP/US) certification program.

What you'll learn

- Gain a foundational understanding of broad global concepts of privacy and data protection law and practice
- Gain knowledge of jurisdictional laws, regulations and enforcement models; essential privacy concepts and principals; legal requirements for handling and transferring data
